DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The error statement included in the oath/declaration is not specific enough as it only includes referenced figures and column numbers without an explanation.

2. Claims 1-33 and 40-55 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

3. The original patent is not currently in force. It appears that a petition has been filed to request acceptance of late payment of the maintenance fees, but it has not yet been granted.

4. Claims 1-33 and 40-55 are rejected as being based upon a defective reissue original patent under 35 U.S.C. 251 as set forth above. See 37 CFR 1.138.

The nature of the defect(s) in the original patent is set forth in the discussion above in this Office action.

Specification

5. The disclosure is objected to because of the following informalities: All continuity data must be referenced in the first paragraph of the specification, including the pending child reissue application.

Appropriate correction is required.

Response to Amendment

6. Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).

7. The amendment filed December 11, 2006 is non-compliant because claim 6 is listed twice. A supplemental paper correctly amending the reissue application is required.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2617

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
